

4th October 2016

Dear Parents/Carers,

Petworth CofE Primary School would like to invite you to come along for a relaxing yet exciting morning of:

Maths Calculation and Reasoning Strategies
Friday 25th November, 9.00-10.00am

Would you like to know how to best support your child with their maths at home? Would you like to know more about reasoning and its impact on the teaching of mathematics?

In March 2016 we ran a very successful Maths calculation morning for parents sharing how we support your children in the learning of addition, subtraction, multiplication, and division. We have decided to take the next step, with a greater focus on how we teach reasoning in the school and how this prepares children for end of key stage tests and the move to secondary school. We will also briefly focus on growth mind-sets within mathematics.

The morning will start with an introduction in the hall and then you will have the opportunity to work with some of the children, looking at their calculation and reasoning strategies. I will also be on hand to answer any questions you may have.

We hope to see you there.

Yours sincerely,

Laura Sandon-Webb
KS2 Leader of Learning
