

10th October 2018

Dear Parents/Carers,

Petworth CofE Primary School would like to invite you to come along for a relaxing yet exciting morning of:

Maths Calculation and Reasoning Strategies
Monday 19th November 2018, 9.00-10.20am

Would you like to know how to best support your child with their maths at home? Would you like to know more about reasoning and its impact on the teaching of mathematics?

In November 2017 we ran a very successful Maths calculation morning for parents sharing how we support your children in the learning of addition, subtraction, multiplication, division and reasoning. We have decided to take the next step, by inviting you to work with the children in their classes and look at the schools approach to; fluency reasoning and problem-solving. We will also briefly focus on growth mind-sets within mathematics.

The morning will start with an introduction in the hall and then you will have the opportunity to work with some of the children, looking at their calculation and reasoning strategies. After this you will be welcome to visit the children's classes and work with them in mathematics. I will also be on hand to answer any questions you may have.

We hope to see you there.

Yours sincerely,

Laura Sandon-Webb
Deputy Headteacher
